New Website

Welcome to our Lakefield Township News! This is a new resource for the community to learn what is happening at our Township Hall and our area.

Lakefield Township has been working with Velvet Green Creations in the designing of a new website. Our new website will enable residents to stay abreast with important information regarding the township. Residents will have access to an Online Tax Search, Calendar of Events, Meeting Minutes, Board of Directors, Important Urgent Topics, News, along with Rental Hall information and improvements.

www.lakefieldtownshipmi.com

The new website will also offer affordable Advertising to area businesses and organizations. All of the banner ads are shown in the lower (footer) area of the website and will be on every page shown in the menu.

The site will also offer links to important information about our area. We invite you to explore our new online presence and let us know what you think.

Lakefield Township is moving forward with our technology and services!
