Township Hall Improvements

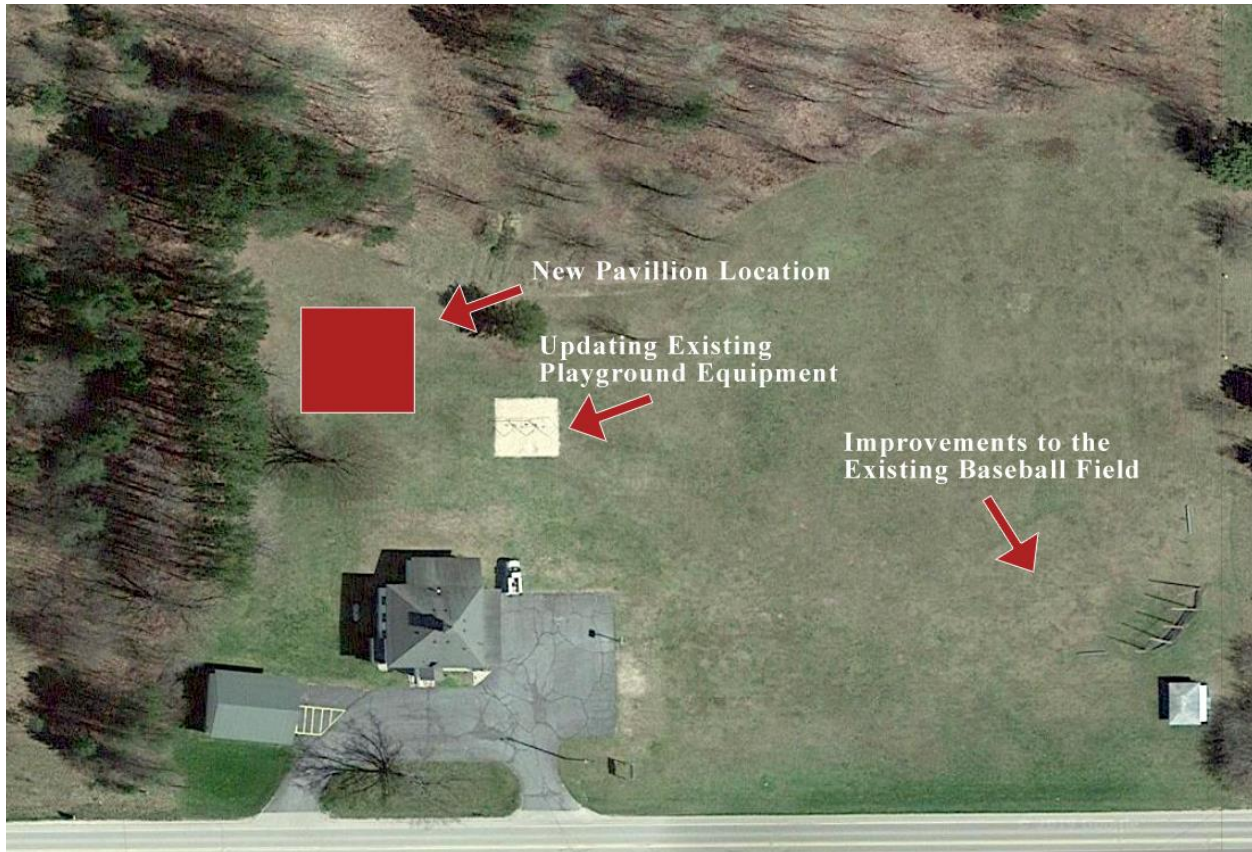

Welcome to our Lakefield Township News! This is a new resource for the community to learn what is happening at our Township Hall and our area. We have some very exciting improvements that we are planning & proposing for the New Year.

We are currently planning on fixing our bathrooms during the 2020 winter season. We will be making the bathrooms handicap accessible, adding all new fixtures, and replacing all of the toilets. At this time, the Township Hall is handicap accessible and once the bathroom is complete, it will be at 100%.

As soon as weather permits, our Bell Tower will have a new look. We have been given a bell from the Mark's School, donated by Gary Mark for the Township Hall use. It has already been refurbished with new paint and will be hung in the spring of 2020. This will add to the nostalgia and the completed look of the hall.

Proposed property updates are all on the table right now. At this time we are looking at improving the ball field for baseball. We are also looking at building a large pavilion. This this will allow for more outdoor activities when renting the hall. Ideas for pavilion use include a BBQ area which will be a great addition to the community.

We also plan to add picnic tables and expand our existing playground equipment. Please view map below for details.

We invite you to let us know your ideas – big or small. We look forward to hearing from you.

Remember, our Rental Hall is free to our Lakefield Township residents!
